**iVOS FaceRec**

HOW IT WORKS

# System Architecture

Command Control - See your security video wall spring to life for the very first time

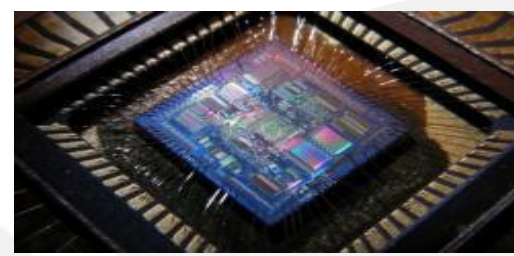

Making people's faces the world's greatest security weapon against crime and terrorism.

Solutions specialists  
**Viseum**<sup>®</sup>  
Intelligent CCTV monitoring

Intelligent camera and video

Surveillance monitoring experts

# Automated Person Profiling

- **Viseum iVOS FaceRec captures an image from many sources – Direct (CCTV) Indirect (mobile phone, Facebook, camera...in fact anything that takes a picture!).**
- **Viseum iVOS stores that face in a “suspect file” to be monitored by the system.**
- **Viseum iVOS can then automatically create a full profile of the same person by detecting similar images stored on file.**
