

Support key technology recommendations from the UK Home Office CCTV Strategy.

Use fewer cameras less reliant on CCTV infrastructures to protect larger areas of more locations.

Provide reassurance for your residents and the ultimate deterrent to would be offenders by
having all your PTZ camera installations performing "manned" 24/7/365

Each single IMC installation automatically provides:

- Recognition evidence up to 147m in any direction
- Identification evidence up to 61m in any direction
- 67,800 square metres of simultaneous coverage to Home Office evidential quality guidelines

Viseum's Technology Partners present this patented breakthrough
integrated into your central control room operations.

Operator Vigilance

From your control room or securely via the internet, control your PTZ cameras in the normal way or faster in emergencies with a touch on your screen. Additionally, at your control room and on your mobile phone you can receive audio and visual alerts, and by using your contextual view cameras, you have the ability to see behind you at the same time as following an event.

Have eyes in the back of your head and from wherever you are

Intelligent Automation

At a touch of your screen, programme your PTZ camera installations with local knowledge of specific areas, and times of day or week at which to expect crime. Prioritise certain areas over others, but remain automatically vigilant to include the many areas where random crimes could occur.

Stay on top of all your cameras

Evidence

Benefit from extended dual evidence of any close up event using your IMCs fixed contextual view cameras.

See the lead up to the event as well as the aftermath, for example who else witnessed it and where the suspect(s) came from and escaped to.

Never miss a thing

Post-event Interrogation

Review your IMCs local recordings as an extension to your central control room's storage. Significantly reduce post-video interrogation time by using your fixed contextual camera views for a "Smart Search" capability to locate specific areas where close up evidence is required.

Don't waste anyone's time

Resilience & Simplicity

For backup storage or, primary use, and to eliminate costly transmission, use your IMC installation to locally store contextual and close up recordings. Also, use your IMC as a multichannel codec, avoiding the need to purchase additional hardware.

Save even more budget

Easiest and most secure web based control room integration techniques.
Various levels of functionality available.
